At the university gate #1, the taxi driver should ask where the physics institute is. The easiest way is to take Prof. Luciano Gualberto avenue and turn left on the big square with the gigantic horse statue.

TAXI: Pegar avenida dos bancos, até a praça do cavalo. Subir (esquerda) em direção a prefeitura/hospital. Virar a esquerda na rotatória: rua do Matão

After the horse round about, take a left on the next round about. That's Matão street (institute's address). To get to my office, turn the next right at "Travessa R" street.

My office is room n.100 of Basilio Jafet building. Its an old yellow building in between the trees on your left as you go up hill towards IPEN entrance.

IPEN entrance is about 50m away

TAXI: Na rua do Matão, virar a direita para o IPEN
Prédio amarelo, a esquerda, antes de chegar no IPEN
